CONCERNED IN THE COLLECTION OF DUTIES ON
IMPORTS AND EXPORTS, TAXES AND OTHER
CHARGES AND EXACTIONS TO BE LEVIED AND
COLLECTED AS A MILITARY CONTRIBUTION AT
PORTS AND PLACES IN THE POSSESSION OF OR
UNDER THE CONTROL OF THE FORCES OF THE
UNITED STATES, IN THE PHILIPPINE ISLANDS.

ENTRANCE AND CLEARANCE OF VESSELS.

1. Every vessel shall, on arrival, be placed under military guard until duly discharged. Passengers with no dutiable property in their possession may be permitted to land without detention.

If, upon the unloading of any cargo, there shall be found goods, wares or merchandise not duly declared on the manifest, such articles in excess shall be required to pay additional duties of 25 per cent on the regular duties. Should any packages or articles named on the manifest be missing on the arrival of the vessel, the latter shall pay a penalty of 1 peso per ton measurement, unless such deficiency shall be satisfactorily explained or accounted for.

2. Within twenty-four hours after the arrival of any vessel the master must, under a penalty for failure of 1 peso per ton registry measurement, produce to the proper officer a manifest of her cargo, with the marks, numbers and description of the packages and the names of the respective consignees, which manifests, if the vessel be from a port in the United States, shall be certified by the collector of the port of sailing. If the vessel be from any other than a United States port, her manifest must be certified by the United States consul or commercial agent at such port; if there be no United States consul or commercial agent at such port, then by the consul of any nation at peace with the United States; and the register of the vessel shall, upon her arrival in the Philippines, be deposited with the consul of the nation to which she may belong, if any there be, otherwise with the commandant at the port, until the master shall have paid such tonnage taxes and other port charges as may be due under these regulations.

3. No vessel shall be allowed to clear for another port until all her cargo has been landed or accounted for. All goods not duly entered within ten days after their arrival in port shall be landed and stored, the expense thereof to be charged against the goods.

4. Prior to the departure of any vessel from any of the ports herein designated, the master shall deposit with the proper officer a manifest, in duplicate, of the outward cargo of such vessel, specifying marks and numbers of packages, a description of their contents, with names shippers and consignees, with a statement of the value of each separate lot; also names of passengers and their destination. A clearance will then be granted to the vessel. No prohibited or contraband goods shall be exported.

LIGHT DUES.

5. At all ports or places in the Philippines which may be in possession or under administrative control of the land or naval forces of the United States there shall be levied the following navigation and port charge:

Per net ton.

On each entry of a vessel from a port or place, except from another port or place in the Philippines.....\$0.10

6. The following shall be exempt from light dues:

A vessel belonging to or employed in the service of the Government of the United States; or a vessel of a neutral foreign government not engaged in trade; or a vessel in distress; or a yacht belonging to an organized yacht club of the United States or of a neutral foreign nation.

7. The tonnage of a vessel shall be the net or register tonnage expressed in her national certificate of registry.

ENTRY OF MERCHANDISE.

8. The consignee named in the bill of lading, or the person to whom such consignee shall, by indorsement, have assigned the bill of lading, shall present to the officer duly designated for that purpose his declaration in triplicate, an invoice describing the goods, showing their character, quantity, the name of the importer and of the vessel of importation, the place whence the goods were imported, the date of their arrival at the port of destination, the marks and numbers of the packages, the nature and quantity of their contents and their value. The declaration shall be signed by the importer, who must certify to the truth of all the statements contained therein.

9. After the packages and contents have been duly compared with the declaration, and found to agree therewith, the duty due thereon will be computed on the face of the entry, and, after the payment of the proper duties and charges, an order for the delivery of the packages and contents will be issued by the proper officer.

10. Any objections to the assessment of duty must be filed by the importer before the payment by him of the same, and no refund of duty will be made thereafter.

11. Goods found to be fraudulently invoiced, either as to character or quantity, and all goods attempted to be introduced without permit, shall be confiscated.

12. No delivery of imported merchandise shall be made to the importer unless he shall have duly paid the duties assessed thereon.

13. Any goods, wares or merchandise not duly entered for payment of duty within ninety days after importation shall be sold at auction by order of the commandant after five days' public notice conspicuously posted at the port. The proceeds of such sale will be kept for ten days, subject to the demand of the importer after deduction of the proper duties on the goods and all expenses of storage and sale. All merchandise remaining in the "godowns" of the custom house longer than fifteen days shall be charged with storage at the rate of 5 pesos per ton per month by measurement or dead weight, as shown by bill of lading.

14. All seized and confiscated merchandise will be sold in like manner, and the proceeds, after deduction of expenses, will be turned over to the officer duly designated for that purpose.

15. Merchandise originally destined for some port or place in the Philippines, not in the possession of the United States forces, may be entered at one of the designated ports. Vessels may likewise enter, although originally cleared for a port in the Philippines not in possession of the United States.

WHARF CHARGES.

16. Goods of all kinds exported through ports of the Philippines declared open by the United States shall pay one peso per 1,000 kilograms gross, as a charge for wharfage, whatever be the port of destination or nationality of the exporting vessel.

17. Goods of all kinds imported into ports of the Philippines, declared open by the United States and destined for trans-shipment to other ports of the Philippines declared open by the United States, shall pay a charge for wharfage of one-half of one peso per 1,000 kilograms gross at the port of trans-shipment.

18. Merchandise imported, exported, or shipped in transit for the use of the Government of the United States, including coal, shall be exempt from wharf charges.

HARBOR AND COMMERCIAL IMPROVEMENT CHARGES.

19. In addition to custom duties and other exactions there shall be levied a charge of 8 per centum, on the value, as per schedule,

of all merchandise, free or dutiable, imported into the Philippines, and 10 per cent additional on the amount of the import duty; but merchandise imported or exported for the use of the Government of the United States including coal shall be exempt from this charge.

20. The officer duly designated for that purpose shall receive all customs duties, fees, and charges, and shall without delay pay the same over to such officer as shall be designated by the commanding general. Records shall be kept and accounts rendered of all money transactions and receipts in duplicate shall be taken by the officer paying over such moneys, one copy to be retained by him as his official voucher and the other transmitted by mail with his accounts to the War Department, Washington, D. C.

21. Such public buildings as may be suitable for the purpose shall be used and occupied for the transaction of business and for the storage of imports.

22. All supplies and materials for the use of the Army and Navy of the United States shall, under suitable restrictions to be prescribed by the commanding general, be admitted without payment of duty.

(a) To ascertain the number, according to the English system (the system adopted in this tariff), to which a cotton yarn corresponds, any number of meters of yarn may be taken, and this number is to be multiplied by the invariable factor 59 (this being the number of centigrammes a meter of cotton yarn of a single thread No. 1 weighs). The product of the above multiplication is to be divided by the number of centigrammes that the length of yarn tested may weigh. The quotient multiplied by the number of threads will then give the corresponding English number, to which 7 or 10 per cent is to be added, according as the cotton of more than one thread be only spun or dyed.

*Add surtax of 20 per cent on duty.

(a) The number of threads is to be ascertained by count of the threads contained in a square of 6 millimeters, counting the weft and the warp. The instrument called "thread counter" is to be employed for this purpose.

(b) Lace of a maximum width of 10 centimeters shall be dutiable according to this number; that wider shall be included in No. 134 as tulles.

(c) As yarn of jute is considered twisted thread of one end the thickness of which is equal to or less than the English No. 1, that exceeding this number is considered as cordage. To ascertain this number any number of meters of yarn may be taken, and this number is to be multiplied by the factor 165 (1 meter of yarn of jute, No. 1, weighs 165 centigrams), and divided by the number of centigrams that the length of the yarn tested may weigh. The quotient will then give the corresponding English number.

(d) By the cordage paying under this heading shall be understood hemp, flax, or jute yarn, twisted in two or more strands, 10 meters of which weigh more than 5 grams.

Threads of cotton and floss silk.....	Threads of wool and floss silk	Tissues of floss silk.
Threads of wool.....	Threads of wool, cotton, and silk.	Tissues of silk mixed with wool.

When the highest taxed thread, whether weft or warp, entering in tissues composed of three or more different materials does not exceed by 10 per cent the total weight of the tissue, such thread shall not be considered in the payment of duties, and the duty on tissues mixed with other materials shall be applied.

335. Tullies shall pay the duty on the material forming the ground, and should this be mixed, the duty of the predominant material.

336. Shawls with fringes shall pay, including the weight of fringes, according to the class of the tissue of which they are made.

Tissues embroidered by hand or machine, not in a loom, and those mixed with fine or imitation metals, whether embroidered or not, shall pay the duty corresponding to their class, with a surtax of 50 per cent.

337. Ready-made clothing, including body linen, whether completely finished or only stitched or seamed, and knitted tissues, fes-

tooned, shall pay on their total weight the duties fixed for the material of which they may be composed in their exterior part, with a surtax of 50 per cent.

338. Articles of clothing made of knitted tissues are exempt from the above-mentioned additional duty, and will pay duty according to the respective tariff number without any increase, on condition, however, that they have not been cut from the piece and have not passed through the hands of tailors or milliners. In the latter case they will be subject to the additional duty levied on ready-made clothing and linen articles.

339. Wreckage of foreign vessels lost on the coasts of the Philippine Islands shall pay 8 per cent ad valorem on their selling price at public auction. This sale shall be effected conformably to the formalities prescribed by the ordinances.

340. Floating docks, whatever their power, size or construction, shall pay a duty of 6,250 pesos.

341. The duty on articles composed of two or more materials shall be levied according to the following rules:

a. In cases not provided for in the tariff, and when the value of the article is determined by the exterior material, the classification shall be made according to the corresponding number of this material.

b. Articles which, by their nature and application, are composed of two different materials (for instance, tools of iron), shall be taxed according to the material predominating in weight.

c. When the mixture of different materials has been made in order to evade the payment of the duties on any article, as, for instance, a mixture of flour and bran, of earth and a soluble chemical product, the duty of the material paying the highest duty shall be levied.

PACKAGES AND RECIPIENTS.

342. By exterior package is understood that which is visible when the package is unopened. All the others contained therein are considered to be interior packages.

The following articles shall pay on the gross weight when they are contained in a single package:

Oils and greases; meat, fish, and intestines when imported in brine; scales and machinery; chemical products and drugs; also all other articles enumerated in Nos. 26, 28, 31, 36, 76, 85, 86, 182, 188, 191, 201, 209, and 211, tariff schedules.

343. Should any of the articles mentioned in the preceding paragraph be imported in two or more packages, or in packets con-

tained in the exterior package, only the weight of the interior packages or packets shall be included in the weight of the goods.

All other goods, including buttons and haberdashery, packed in pasteboard boxes, shall pay duty on paper wrappings, ribbons, packets, or interior packages, provided, always, that they are not fancy boxes, etc., assessed separately.

344. Boxes and cases in general, paper wrappings or cardboard for shirt fronts, and paper used for wrapping up shawls of Chinese silk, the exterior covering as well as the paper placed between the folds, and the fine gold foil, shall be taxed separately under their proper class.

345. Percussion caps for firearms, hooks and eyes, pins, eyelet holes of metal, detached buttons, steel pens, games and toys, instruments of science and art, and other similar objects, shall pay with the weight of the interior cases or boxes containing them, and in which they are generally retailed.

346. Vessels containing alkaloids and their salts, brandy, liqueurs, beer, cider, and wines shall be assessed separately, according to their respective materials.

347. The rollers, boards, and pieces of cardboard around which fabrics are wrapped, including wire gauze, oilcloth, trimmings, ribbons, etc., as well as the cardboard bobbins on which yarn is wound, shall be deducted from the dutiable weight of such articles.

348. Articles contained in double sacks, or in a sack and another distinct covering, shall be assessed with that immediately covering the goods. Tea shall be taxed with all the interior packages.

349. Casks, barrels, and large metal receptacles shall pay duty according to their class, except when they contain goods which pay on the gross weight.

350. Sacks and packing cloth sewn in shape of sacks, serving as packages, shall pay 2 centimes of a peso each, except when they contain goods which pay on the gross weight.

351. When goods subject to duty on the gross weight, and articles paying on the net weight, are contained in one and the same exterior package, the gross weight shall be proportionately reduced.

352. When packages of goods are subject to a higher duty than the goods themselves, being other than those generally employed or when they can be used for another purpose, they shall be taxed at the rate corresponding to their class.

353. The following percentage shall be deducted, as tare, from the gross weight of the goods mentioned below:

355. The above-mentioned tares shall be deducted even when the packages contain other goods not subject to the legal tare, provided, however, that such goods do not exceed 50 per cent of the gross weight. When they exceed this limit the provisions of this disposition shall not be applied, and the packages shall be taxed according to their class.

Whenever duties are assessed according to weight, a proper

allowance shall be made for the weight of the outside case, cask, or other package containing the goods, unless otherwise provided for; and duties shall be assessed upon the weight or quantity of the contents as actually found on arrival, but no allowance shall be made for damage occurring on the voyage, except in case of marine disaster.

REIMPORTATION OF NATIONAL PRODUCTS.

357. Goods, fruits, and articles of the Philippine Islands exported abroad and reimported, owing to their not having been sold at the place of destination, shall be exempt from the payment of duty provided, always, that they are inclosed in the same packages and bear the same marks, and that they are accompanied by certificates of the consular officer, or, should such functionary not exist, of the local authority, attesting that the goods, produce, or effects of the country are reimported for the above-stated reason.
